

Quality policy

SEQENS Cosmetics and In Vitro Diagnostic manages all of its activities through a quality management system in accordance with international standards (ISO 9001 and 14001 v2015) and is committed to:

- To always listen to its customers and other stakeholders to ensure their satisfaction
- To respect the regulations in force to conduct its operations
- Continuously improve the efficiency and reliability of its quality management system and its activities
- Develop the qualifications and skills of its staff with individualized training and support

To achieve our objectives, we:

- Manage our activities using a comprehensive quality management system based on the continuous improvement approach
- Facilitate managerial routines and quality action plans by:
 - Measuring the performance of quality processes using indicators
 - Defining actions to reach objectives
 - Checking the effectiveness of actions on a regular basis

SEQENS Cosmetics and In Vitro Diagnostic managers are responsible for rolling out this policy to our employees and partners. All employees and third parties who work on behalf of SEQENS Cosmetics and In Vitro Diagnostic are required to work in compliance with the commitments mentioned above.
